

C FOAM

Mountain Supply and Service's C-Foam is a solution of anionic foaming agents and foam boosters formulated in water and propylene glycol developed for use in air mist and stable foam operations in environmentally sensitive areas.

APPLICATIONS(C FOAM):

- As a foaming agent exhibiting superior foam quality and stability in a wide variety of waters and field conditions.

BENEFITS AND ADVANTAGES (C FOAM):

- Economical with high performance.
 - Exhibits superior foam quality and stability.
 - Effective in Fresh Water, KCL and brines up through saturation.
 - Can be used with compressed air, nitrogen, carbon dioxide or natural gas operations.
-

DEFOAMER

Mountain Supply and Service's DEFOAMER is a high molecular weight alcohol based defoamer designed for application in coil tubing operations.

APPLICATIONS(DEFOAMER):

- Use to effectively break the bubble structure of both polyhedron and sphere foams, allowing the entrained gas to be released from the fluid.

BENEFITS AND ADVANTAGES (DEFOAMER):

- Economical with high performance.
 - High molecular weight and alcohol-based.
 - Oil Soluble.
 - Remains on surface to control most foaming problems in water based solutions.
-

PACKAGING:

C FOAM & DEFOAMER available in 5 Gallon Pails
