

Mountain Supply and Service's PF 3000 a packer fluid used as a multifunctional corrosion, scale and rust inhibitor, oxygen scavenger water-soluble formulation possessing strong surface active anti-microbial properties. It is composed of complex acrylates and quaternary amines.

APPLICATIONS:

- As an inhibitor of packer fluid corrosion.
- As a method of prevention of deposit formations from fluids under static conditions.

BENEFITS AND ADVANTAGES:

- Very effective at low concentrations, making it extremely cost effective.
- Thermally stable.
- Effective in hot wells.
- Particularly effective in high fluid wells.
- Non-foaming and will not adversely affect drilling fluid properties.
- Designed specifically for fresh water and brines.
- Contains corrosion and scale inhibitors, an oxygen scavenger, and a biocide.

MIXING GUIDELINES:

- Mix using a 0.5% solution to obtain maximum performance.
- Example - 400 bbl frac tank X 42 gallons X .005 = 84 gallons of packer fluid.

PACKAGING:

PF 3000 is available in 5 Gallon Pails.
